ROLLUPOS APPLICATION USER MANUAL • ADMIN & DEV TOOLS

🧪 RollupBridge Inspector

Admin Multi-Tenant Diagnostic Console • Session Verification, Live ACL Matrix & Storage Namespace Inspector

Version: v1.0.1 | Build Hash: #7cb3ca32 | 👑 Admin-Only Cartridge | Auto-Synced: 2026-10-24 22:15

1. ⚡ 60-Second Quickstart Guide

1. **Launch as Hub Administrator**
   Bridge Lab is gated with `visibility: admin_only`. Non-admin testers attempting to open its URL are automatically blocked by `RollupBridge.enforceAccessGate`.

2. **Verify Active Session & Impersonation State**
   Check Panel 1 (`Active Session & Role Verification`) to inspect the hydrated user object, Google email, role badge, and admin flags.

3. **Audit the Live Access Control Matrix (ACL)**
   Inspect Panel 2 (`Live Hub Access Control Matrix`) to confirm exact `authorized_apps` arrays and `default_app_configs` synced from `registry.json` or mobile Admin edits.

4. **Inspect Raw `rollup::v1::*` Device Keys**
   Review Panel 3 to audit every isolated per-user storage key, secret vault key name, and OTA `installed_ledger` entry stored on the current device.

2. 🧭 Screen-by-Screen & Navigation Map

SCREEN / TAB / MODAL	WHAT IT CONTROLS & HOW TO USE IT
1. Active Session & Role Card	Displays live JSON output of `RollupBridge.auth.getCurrentUser()`.
2. Live Hub ACL Matrix Card	Displays complete multi-user permission dictionary from `RollupBridge.auth.getACL()`.
3. Device Storage Key Ledger	Sorted inventory of all `rollup::v1::*` keys in `localStorage` for isolation auditing.
⚙️ **Universal Settings Sheet**	Quick access to storage reset tools and this diagnostic User Manual PDF.

3. 🔬 In-Depth Feature Guide & Workflows

Zero-Trust Namespace Verification

Confirms visually that every app writes strictly under `rollup::v1::u::<email>::app::<appId>::<key>`, preventing cross-user or cross-cartridge state collisions.

4. ⚙️ Settings, Secret Vault & Multi-User Data Isolation

Zero manual setup fields required — profile state binds automatically to your Google account session.

🔒 **Storage Namespace Pattern:** `rollup::v1::u::<google-email>::app::bridge-lab::*`

📦 **Active App Storage Keys:** `__user_config__` (Managed automatically)

🔐 **Private On-Device Vault Secrets:** None required (uses Hub session)

Isolated Per-User Storage (RollupBridge)

5. 🎛️ Live UI Controls Reference & Recent Updates

Interactive Controls Detected in Current Build (`v1.0.1`):

Dynamic Touch Interface

Pro Tips & Best Practices:

- Use `👁️ Preview as User` in Hub Admin Mode first, then check which apps remain visible—confirming `admin_only` cartridges like Bridge Lab stay hidden from testers.

Recent Cartridge Update Log (Auto-Tracked on Publish):

- `22d612c` (2026-10-24) — RollupOS Hub & Mini-App sync (2026-10-24 19:59)
- `75878e4` (2026-10-24) — Initial publish: RollupOS Multi-User Android Hub & Mini-Apps
